

APPLICATION SERIAL NUMBER

09/961,381

DOES NOT COMPLY WITH THE SEQUENCE RULES. See reasons below.

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 as the specification does not contain a Sequence Listing and a CRF has not been filed. Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132. Applicant is reminded that the Sequence Listing is to be file as a separate amendment with directions for the entry of the Sequence Listing into the specification.
